Doxee cloud based output management system replaced legacy on-premises platform

Goal: Replace on-premises OMS platform by cloud based solution to bring new capabilities and decrease future development cost

- Production figures: ~ 3.000.000 documents per year
- Number of templates: ~ 100
- Estimated time: ~ 1 year, Real time: ~ 3,5 years

- **Lessons learned:**

- **Don't underestimate the preparation,**
- **Templates clean-up is a prerequisite!**
- **Prepare enough data for testing to get transparency about the output quality!**

Thank you
